

EDWARD KINJA

CNC Operator & Designer | CNC Programming | CAD/CAM | Digital Fabrication

Limuru, Kenya | 0713493169 | edwardkinja3@gmail.com

LinkedIn: linkedin.com/in/edward-kinja-4950463a9

PROFESSIONAL SUMMARY

Dedicated and technically skilled CNC Operator & Designer with 4 years of hands-on experience in CNC machining, digital fabrication, and precision manufacturing. Experienced in preparing and optimizing designs using Aspire software, creating accurate toolpaths, operating CNC machinery, troubleshooting machine issues, and ensuring product quality through effective quality control procedures.

Passionate about transforming ideas into functional, high-quality products through technical design, problem-solving, and precision manufacturing. Strong interest in CAD/CAM technologies, CNC programming, product design, furniture fabrication, and digital manufacturing processes. Committed to continuous learning, improving technical expertise, and contributing to innovative and efficient production environments.

CORE COMPETENCIES

- | | | |
|---------------------------|-------------------------|---------------------------|
| • CNC Programming | • CAD/CAM | • Aspire Software |
| • CNC Machine Operation | • Toolpath Generation | • Product Design |
| • CNC Machining | • Furniture Fabrication | • Technical Drawing |
| • Digital Fabrication | • Quality Control | • Machine Troubleshooting |
| • Precision Manufacturing | • 3D Modeling | • SolidWorks |
| • Problem Solving | • Attention to Detail | • Workshop Operations |
| • Manufacturing Processes | • Team Collaboration | |

PROFESSIONAL EXPERIENCE

CNC Operator & Designer

Klei & Co, Limuru | Duration: 4 Years

- Prepare and optimize CNC-ready designs using Aspire software for precision machining and fabrication.
- Create and manage toolpaths to improve cutting accuracy and manufacturing efficiency.
- Operate CNC machinery for fabrication of furniture and custom wood products.
- Troubleshoot machine-related issues to minimize downtime and maintain smooth workflow.
- Conduct quality inspections and measurements to ensure product precision and manufacturing standards.
- Interpret design requirements and transform ideas into manufacturable products using CAD/CAM workflows.
- Support workshop production through technical problem-solving and machine optimization.

EDUCATION & CERTIFICATION

IOMe005 – Kenya Red Cross Program — Certificate in CNC Operation & Design

Hindi Secondary School — Kenya Certificate of Secondary Education (KCSE)

TECHNICAL SKILLS

Design & Manufacturing Software: Aspire Software; SolidWorks (Practical Knowledge & Continuous Learning)

Technical Skills: CNC Programming; CAD/CAM; Toolpath Creation; Machine Setup & Operation; CNC Machining; Technical Drawing; Product Design; Quality Assurance

PROJECTS & PRACTICAL EXPERIENCE

Furniture & Wood Product Manufacturing

Designed and fabricated furniture and custom wooden products using CNC machining processes. Prepared cutting files, generated toolpaths, optimized machining strategies, and ensured quality finishing standards.

CNC Design & Fabrication

Prepared CNC-ready vector designs in Aspire software and transformed concepts into accurately machined products using precision manufacturing techniques.

Machine Troubleshooting & Workflow Optimization

Diagnosed and addressed CNC machine operational issues to support efficient production and minimize downtime.

PROFESSIONAL STRENGTHS

Technical Problem Solving • Precision & Attention to Detail • Fast Learner & Adaptability • Strong Work Ethic • Team Collaboration • Manufacturing Accuracy • Continuous Learning Mindset • Time Management
